- As an Individual** - Sign up to get started right away and fundraise on your own for the cause you love!
- Join a Team** - If your friends, school, business, or other group has already created a team, join them to make an even greater impact!
- Create a Team** - If you plan on recruiting your friends and family to set up fundraising pages in addition to yourself, make sure to create a team so you can work together!

2. Set your fundraising goal - there is a pre-populated goal set, but you can change that goal to whatever is right for you. Keep in mind that you can always edit your goal once you get started. Here are some ideas of how your fundraising goal will impact our mission.

- a. \$3,000 -
- b. \$2,000 -
- c. \$1,000 -
- d. \$500 -
- e. \$ - Create your own goal. Any and All donations go straight toward program costs.

3. Choose a fundraising end date

This is a one day or maybe one week ask. The more money raised, the more we are able to help people. Funding is the hardest part- each year there are always people we can't reach.

4. Add your headline - share a short message about why you are fundraising for our organization. Here are some ideas to get you started:

- a. **Help those in need.**
- b. **Inclusion**
- c. Access Matters
- d. Create your own

5. Set an option short URL - so you can easily share it with your friends and family!

- a. Example: give.disabilityconnect.org/JonsRampTeam

6. Upload a photo - Make your page more personalized and recognizable for your friends and family! You can always come back and change it if you'd like.

To learn more about editing and personalizing your page, access Classy's support article [here](#).

You can Customize your Fundraising Story

We've already provided you with a general page and statement, BUT people love giving to people they know!

To make your page more custom to you, you have the options of adding personal touches to your fundraising page. Adding information like why you are fundraising, your connection to our organization, or personal photos and stories helps your friends and family connect more with the mission. Your personal supporters will feel more compelled to give because they understand your personal relationship and what our organization means to you. So don't be shy to make edits to your page and share updates as your progress grows!

Pro Tip - Don't forget to be the first to donate to show how dedicated you are to Ramp It Up! You're bubbling up your own progress bar and removing any fear of donors being the first to "join the party"!

Key Messages

Here are a few key messages that can help you get started. They're also great to share with your friends and family if they ever ask you what our organization does in the community!

- **disAbility** Connections works to advance the independence, productivity and full inclusion of children and adults with disabilities into our communities.

- Have been assisting with building residential ramps for over 30 years.

- ● **disAbility** Connections provides Durable Medical Equipment for short term rentals or purchase to assist people with their accessibility and independence at home and in the community.

Spread the Word – Email & Social Media

You're on your way to fundraising success - now it's time to spread the word and reach your goal!

We suggest starting by creating a list of people you plan to reach out to.

1. Start with 10 from your closest inner circle- They're the most likely to make the first few donations, as they are more accountable to your personal outreach. It's always nice to get some quick wins in the beginning too!

2. Cast a wider net - Don't be afraid to push yourself and expand your list - some people in your wider network may have a personal connection to our mission, and it could spark some great conversations on top of a donation towards your goal!

Email Examples

Email is one of the easiest and most effective ways to fundraise! This should be the first place you start in your outreach strategy.

Pro Tip - Keep it clear, direct, and urgent! Don't be shy about adding some visual and personal elements to keep your messaging more engaging!
